Aims & Scope

Current Hypertension Reviews publishes frontier reviews/mini-reviews, original research articles and guest-edited thematic issues on all the latest advances in hypertension and its related areas, e.g., nephrology, cardiology, pediatric hypertension, endocrinology, neurophysiology, clinical care, and therapy. In addition, we encourage updated information on blood pressure monitoring, digital therapeutics and mobile health. The journal aims to publish the highest quality review articles dedicated to clinical research in the field. The journal is essential reading for all clinicians and researchers in the field of hypertension.
