Aims & Scope

“*Current Nutraceuticals*” publishes original research articles, mini- and full-length reviews, feature articles, technical notes and thematic issues covering all aspects of nutraceuticals, from the isolation and comprehensive characterization of secondary metabolites and their synthesis to the biological activity of nutritional constituents and antioxidants, clinical, population, ethnological and agricultural studies. The journal also explicitly welcomes interdisciplinary contributions considering wider social, cultural, ethical and applied aspects of nutraceuticals and nutrition in modern society.

- Isolation and comprehensive chemical and physical characterization of active ingredients,
- Secondary metabolites from plants and (micro-)organisms,
- Antioxidants,
- Chemoprevention,
