Hospital End User Computing in Japan - How to Use FileMaker Pro with Hospital Information Systems

www.benthamscience.com/ebooks/9781608052165

About the ebook

This e-book describes how to use FileMaker Pro with hospital information systems (HISs). EUAs are described with relation to tools used for development, their functions, coordination methods with HIS, how to use them, their effectiveness, and their problems. While not all of the applications fulfill complete requirements for RASIS, and are not established, they give us new perspectives regarding HISs.

Contents

- Definition and Classification of End User Computing in This Book
- Construction of a Clinical Decision Support System
- Bi-Directional Integration Between EMR and FileMaker
- Document-Oriented Computing-Based System
- Integration Between Hospital Information Systems and FileMaker Pro
- Small System Suitable For Team Working With Diabetes Mellitus Patients
- The World of Software Developed by Medical Staff
