Terrestrial and Extraterrestrial Space Dangers: Outer Space Perils, Rocket Risks and the Health Consequences of the Space Environment

www.ebooks.benthamscience.com/book/9781608059911

About the ebook

Natural elements and cosmic phenomena in space, such as asteroids, comets, meteors, black holes and super bubbles pose a threat to the planet Earth and spacefarers in the near-Earth environment. Terrestrial and Extraterrestrial Space Dangers describes these dangers in the near-Earth outer space environment. The human health consequences for vision, muscles, and the neurovestibular system, for instance, on exposure to an outer space environment, are also explained in this book.

Contents

- Asteroids
- Near-Earth Asteroids & Near-Earth Objects
- Comets
- Meteors, Meteorites & Meteoroids
- Space Debris
- Satellites
- Radiation

Gibson's analysis of space dangers... is entirely correct

Foreward by John George Greco Law Group
