Editor-in-Chief
Debomoy K. Lahiri, United States

ISSN: 1874-6098 (Print)
ISSN: 1874-6128 (Online)

Aims & Scope

Current Aging Science publishes frontier review and experimental articles in all areas of aging and age-related research that may influence longevity. This multidisciplinary journal will help in understanding the biology and mechanism of aging, genetics, and pathogenesis, intervention of normal aging process, and preventive strategies of age-related disorders. The scope of this journal includes psychological, sociological, biochemical and clinical approaches related to aging, elderly patients and the relevant clinical treatment. The journal publishes objective reviews written by experts and leaders actively engaged in research using cellular, clinical, molecular, and animal models, including lower organism models (e.g., yeast, *Caenorhabditis elegans* and *Drosophila*).
