

## Aims & Scope

**Letters in Organic Chemistry** publishes original letters (short articles), research articles and full-length/mini-reviews in all areas of organic chemistry including synthesis, bioorganic, medicinal, natural products, organometallic, supramolecular, molecular recognition and physical organic chemistry. The emphasis is to publish quality papers rapidly by taking full advantage of latest technology for both submission and review of the manuscripts.

The journal is an essential reading for all organic chemists belonging to both academia and industry.
